

Microchip Number: _____

We provide permanent microchip identification for all of our adults and kittens.

Your new kitten comes to you already fitted with a tiny harmless microchip that will stay safely in place for life, offering protection from loss, theft or separation due to natural or personal disaster. The microchip number is unique and belongs only to your kitten.

You and your kitten will be enrolled in a private 24-Hour Pet Recovery Call Center...for life! We handle the entire process! We can even include your veterinarian's information and an alternate contact of choice.

Shelters, vets, and rescue teams scan for microchips. If ever lost, your kitten can find his way home to you when his number is scanned and the Call Center is alerted. Operators are standing by 24 hours a day to help reunite you and your pet.

We are proud to offer you this service as part of our Standard of Care.
